**Programme attended by- 34 students** (PCMM, Sree Chaitanya Mahavidyalaya, APC College, Dept. of Home Science, Calcutta University),

**Programme Co-ordinator-**Dr. Nabanita Basu and Dr. Gargi Bhattacharjee (Faculties of the Dept., SACT 1)

### **Programme Details**

After the welcome address by our respected Principal Sir Dr. Shyamal Karmakar and followed by brief introduction of the Speaker, we started the session.

Dr. Bhattacharya began the session by approaching the students in an interactive manner. Her lecture on childhood depression covered all the major areas from introduction of the topic to symptoms, causes and remedies for the disorder. The entire lecture programme covered some real life incidents, examples which highly enlightened the students and made the programme interesting for them (reflected from student feedback). During her lecture, Dr. Bhattacharya mainly focused on parental attitudes and behaviour towards their children and how to rectify them with relevance to the present pandemic situation. This programme had been very much beneficial for the students. Since the topic had been part of their syllabus therefore their interaction was very active.

The lecture programme was followed by Valedictory Session where Dr. Bhattacharya cleared all the doubts and queries of the students and from an overall perspective she had given a very good direction to all the students.

After the Valedictory Session the vote of thanks was given by Dr. Kamala Mitra (IQAC Co-Ordinator) and shared the pleasing experience of having a speaker like her.
